Vision

Ohio is a model of health and economic vitality.

Mission

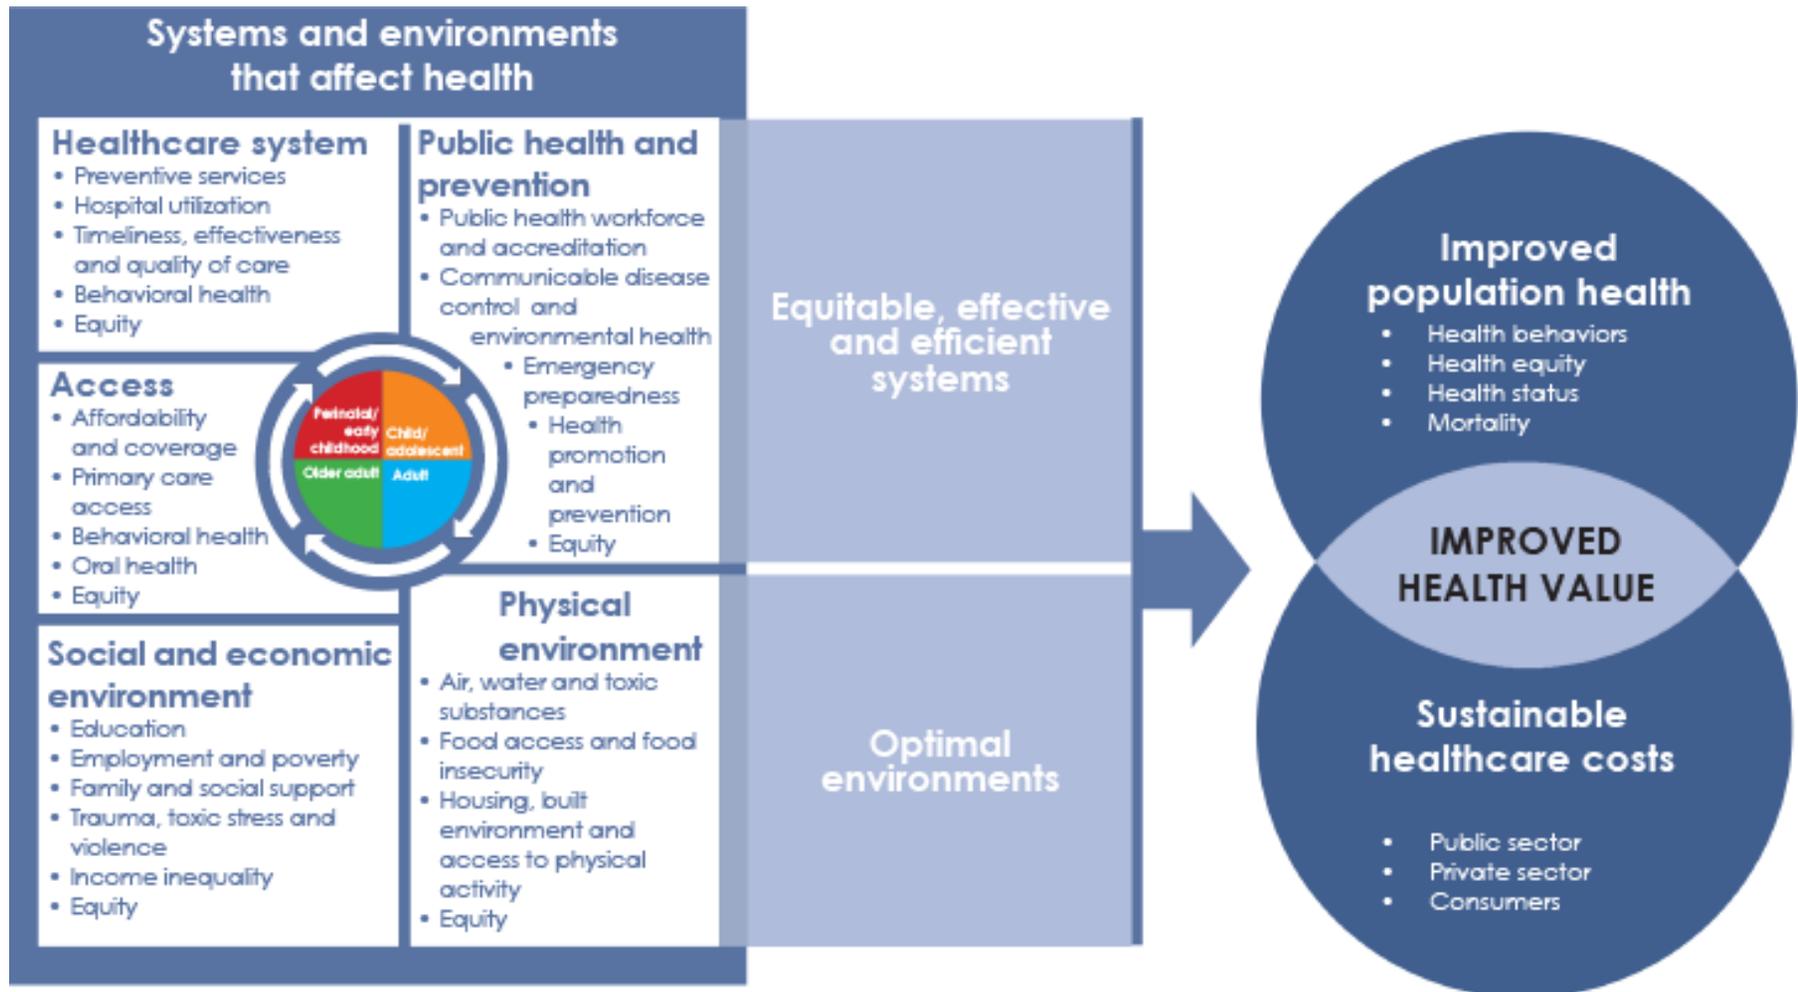

Improve the health of Ohioans by implementing a strategic set of evidence-based population health activities at the scale needed to measurably improve population health outcomes and achieve health equity.

Values

We value an approach to population health improvement that:

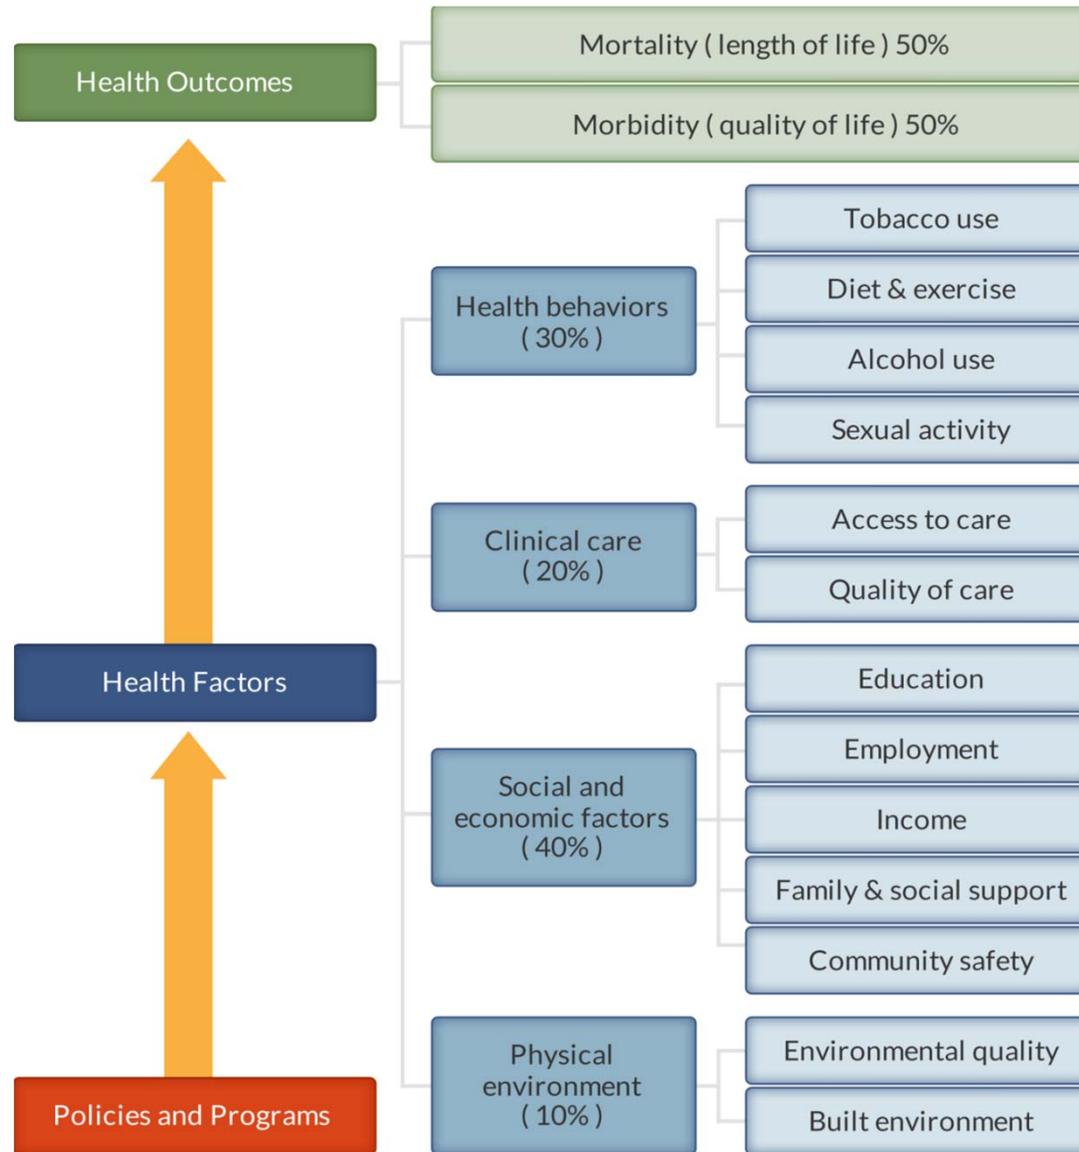

- **Addresses** prevention, the social determinants of health, all stages of the life course and builds upon evidence-based strategies
- **Balances** local needs and innovation with statewide alignment and coordination
- **Fosters** meaningful stakeholder engagement, collaboration across sectors and stronger connections between clinical and community-based organizations
- **Promotes** a culture of health that builds upon Ohio's strengths and assets
- **Results** in actionable recommendations and measurable outcomes and more efficient and effective allocation of state and local-level public and private resources
