## About HPIO educational events

In 2023, HPIO will celebrate 20 years of providing independent and nonpartisan analysis to advance evidence-informed policies that improve health, achieve equity, and lead to sustainable healthcare spending in Ohio. HPIO forums have been an important part of fulfilling our mission, offering state policymakers and other stakeholders the opportunity to hear analysis from experts on current health policy issues and their potential impact on Ohio.

## Sponsorship opportunities

As a sponsor, you will be recognized by a highly qualified audience of Ohio's leading health policy stakeholders. The target audience for our events includes policymakers, providers, advocates, health plans, employers, consumer representatives and researchers. HPIO will host a total of 5-7 online and in-person events in 2023 that include diverse perspectives from national experts and in-depth overviews of HPIO'S recent publications.

To respond to the ever-changing health policy environment, HPIO will select the most relevant emerging topics for educational events in 2023 which will cover topics that affect Ohioans across the lifespan and advance equity. **Potential topics will include:**
