- 40 Health promotion and prevention prevention of chronic disease, infant mortality and injuries

39**Healthcare system**

- 35 Preventive services breastfeeding support, flu immunization, diabetes management
- 42 Hospital utilization heart failure readmissions, emergency department visits
- 31 Timeliness, effectiveness and quality of care healthcare-associated infections, stroke care, nursing home care, patient experience, mortality amenable to health care

Our social, economic and physical environments —where we live, work, learn and play — have a significant impact on our overall health.¹

Clinical care received within the healthcare system accounts for the majority of our healthcare costs. Fewer of our healthcare dollars are spent on public health and prevention.²

KEY

- Top quartile of the 50 states and the District of Columbia.
- Second quartile of the 50 states and the District of Columbia.
- Third quartile of the 50 states and the District of Columbia.
- Bottom quartile of the 50 states and the District of Columbia.
