This meeting is being held via GoToWebinar

- See calendar invite for log-in link
- Note that you will be asked to register before you join the call
- Call-in: (914) 614-3221
- Access Code: 199-655-022

Objectives
As a result of this meeting, Advisory Group members will:

- Understand the background and purpose of the Legislative Service Commission (LSC) Social Determinants of Infant Mortality project.
- Understand their role and the importance of attending the two in-person meetings, and will know where to go to get information and provide input about the project.
- Have increased awareness about trends in state-level infant mortality rates and states with the strongest performance in improving overall infant mortality and black infant mortality.

As a result of this meeting, and follow-up via email:

- HPIO will be able to confirm selection of 8 “best practice” states for further research, and will gather suggested contacts for those states from Advisory Group members.
- HPIO will gather suggested resources and contacts to inform the environmental scans and literature reviews on housing, transportation, education and employment.

Agenda
1. Welcome and meeting overview
2. Background and purpose of the LSC project
3. Stakeholder engagement
4. Timeline and deliverables
5. Approach to social determinants of health and health equity
6. Most-improved state research
7. Environmental scan and literature review
8. Questions
