Background and purpose of Advisory Committee
The Ohio Association of Health, Physical Education, Recreation and Dance (OAHPERD) will lead development of Ohio’s Health Education Model Curriculum. The objective of this K-12 standards-based model curriculum is to guide Ohio’s schools to adopt a skill-based approach to health education. It will be drafted by expert writing teams during the 2018-2019 academic year.

OAHPERD has partnered with the Health Policy Institute of Ohio (HPIO) to convene the Ohio Health Education Model Curriculum Advisory Committee to provide input on the creation, components and structure of the model curriculum.
