HPIO Equity meeting 3
Today’s agenda

• Welcome and overview
• SHA/SHIP purpose and process re-cap
• Demonstration of preliminary draft online SHA
• Additional SHA metrics
• SHA summary report
• Next steps and evaluation
Meeting objectives
Advisory Committee members will be:

• Aware of **purpose and timeline** of SHA/SHIP project, what has been accomplished so far and what’s next
• Familiar with **2019 online SHA** and offer suggestions for improving and disseminating it
• Familiar with purpose and outline of **2019 SHA summary report**
Meeting objectives
ODH, Accenture and HPIO will have guidance on how to:

- Improve and disseminate the online SHA
- Prioritize a small number of metrics to add to online SHA
- Improve and disseminate 2019 SHA summary report
Purpose and process re-cap: Poll question #1
State health assessment and State health improvement plan

Vision
Ohio is a model of health and economic vitality.

Mission
Improve the health of Ohioans by implementing a strategic set of evidence-based population health activities at the scale needed to measurably improve population health outcomes and achieve health equity.

**MIECHV**: Maternal, Infant and Early Childhood Home Visiting Program  
**SUD**: Substance Use Disorder  
**MCH**: Maternal and Child Health
Main components of 2017-2019 SHIP framework

3 priority topics
- Mental health and addiction
- Chronic disease
- Maternal and infant health

10 priority outcomes
Specific and measurable

Cross-cutting factors
- Social determinants of health
- Public health system, prevention and health behaviors
- Healthcare system and access
- Equity
SHIP Prioritization

- Local stakeholder input
- Secondary data
- Steering and Advisory Committee input
Information to guide SHIP prioritization

Local stakeholder input
• New: 2018 regional forums and online survey
• Build upon: 2016 Review of local assessments and plans; and key-informant interviews on health gaps

Secondary data
• 140+ metrics on comprehensive topics, including social/economic/physical environment factors
• Data by race/ethnicity, disability, geography, income level, etc. for some metrics

Steering & Advisory Committee input
• Draft SHA feedback online survey (spring 2019)
• Meeting discussions

**MCH/MIECHV alignment**
Role of the Advisory Committee

Provide guidance to ODH and HPIO on:

• SHA content and format
• SHIP priorities and outcomes
• SHIP strategies
• Dissemination and outreach
## Advisory Committee members

Total members as of 2/12/19: **98**

**Assessment** = Tax-exempt hospital community health needs assessment; **Local health department community health assessment Plan** = Tax-exempt hospital implementation strategy; **Local health department community health improvement plan**

**Tax-exempt hospitals** = As defined in ORC 3701.981
Online SHA
Accenture
Discussion questions

1. How might you be able to use the online SHA in your work?
2. What suggestions do you have for improving the online SHA?
3. What suggestions do you have for disseminating the online SHA?
Additional metrics
Data Profiles

• 140+ metrics
• Data reported by race/ethnicity, county, income, age, disability status, etc. for some metrics
• Trend, U.S. comparison and Healthy People 2020 targets (when available)
Domains

- Demographic characteristics
- Leading causes of death
- Population health
- Healthcare spending
- Healthcare system
- Access to health care
- Public health and prevention
- Social and economic environment
- Physical environment
Suggested new topics
From SHA regional forum attendees and online survey respondents

- Housing (additional)
- Transportation (new)
- Child welfare/kinship care (additional)
- Hepatitis (new)
- Medication-Assisted Treatment (MAT) and drug courts (new)
Decision criteria

1. **Context.** U.S. comparison and/or trend data (3+ years) available.
2. **Local data.** County or city data are available.
3. **Disparities/inequities data.** Break-out data is available by race/ethnicity, disability status, income level or some other characteristics.
4. **Relevance and alignment.** Highly relevant to discussions at regional forums and/or aligns with priorities from other sectors or partners.
Housing

- **Housing quality**: % of households with no severe housing problems, by race/ethnicity and education
- **Home ownership**: % of households living in a home they own
- **Lead exposure risk index**: Score based on age of housing stock and poverty rate* [city]
- **Homelessness**: Count of people experiencing homelessness
Discussion

What questions do you have about these metrics?
Poll question
Transportation

• **Alternative commute modes**: % of trips to work via bicycle, walking or mass transit (combined)

• **Long commute- driving alone**: % of commuters who drive 30+ minutes to work each day

• **Car access**: % of households with no vehicle available

• **Walk Score**: Pedestrian friendliness*

• **Job access rate**: % of jobs accessible in at least 90 min. via transit*
Discussion

What questions do you have about these metrics?
Poll question
Child welfare/kinship care

- **Children’s Services custody and drug use**: % of children in custody with parental drug use
- **Children in foster care**: Number of children in foster care
- **Children with kin**: Number of children in Children’s Services custody placed with kin
- **Children’s Services placement costs**: Annual cost for foster care placements
Discussion

What questions do you have about these metrics?
Poll question
Hepatitis

- **Hepatitis C incidence**: Rate per 100,000 population
- **Hepatitis A incidence**: Rate per 100,000 population
Discussion

What questions do you have about these metrics?
Poll question
MAT and drug courts

- Counties with all three forms of MAT for opioid use disorder: Number of counties with at least one provider for buprenorphine, methadone and Vivitrol
- Counties with specialized docket: Number of counties with at least one specialized docket
Discussion

What questions do you have about these metrics?
Poll question
SHA summary report

Health outcomes
Including 2017-2019 SHIP priority outcomes

Cross-cutting factors
- Social determinants of health (including poverty, violence/trauma, transportation, housing, food access, etc.)
- Public health system, prevention and health behaviors
- Healthcare system and access

Equity
- Disparities
- Inequities
- Priority populations
Preliminary 2019 SHA summary document outline

- Executive summary
- Purpose and overview
- Performance on 2017-2019 SHIP priority outcome objectives
- Summary of SHA regional forum findings
- Data profiles: Online SHA [link]
- Summary of key findings from data profiles
- Discussion and conclusions
What suggestions do you have for disseminating the SHA summary report?
Next steps and evaluation
Next meeting

Advisory Committee meeting No. 3
April 23, 1 p.m. to 3 p.m.

In person at HPIO
Fifth floor conference room
10 W. Broad St., Columbus
Re-cap meeting objectives
Advisory Committee members will be:

• Aware of purpose and timeline of SHA/SHIP project, what has been accomplished so far and what’s next
• Familiar with 2019 online SHA and offer suggestions for improving and disseminating it
• Familiar with purpose and outline of 2019 SHA summary report
Re-cap meeting objectives
ODH, Accenture and HPIO will have guidance on how to:

• Improve and disseminate the online SHA
• Prioritize a small number of metrics to add to online SHA
• Improve and disseminate 2019 SHA summary report
Poll question

State health improvement plan (SHIP) overview

Overall health outcomes
- ↑ Health status
- ↓ Premature death

3 priority topics
- Mental health and addiction
- Chronic disease
- Maternal and infant health

10 priority outcomes
- Depression
- Suicide
- Drug dependency/abuse
- Drug overdose deaths
- Heart disease
- Diabetes
- Child asthma
- Preterm births
- Low birth weight
- Infant mortality

Equity: Priority populations for each outcome

4 cross-cutting factors
- Social determinants of health
- Public health system, prevention and health behaviors
- Healthcare system and access
- Equity

Overview of guidance for local alignment with the SHIP
See ODH guidance for aligning state and local efforts for details

Select at least 2 priority topics (based on best alignment with findings of CHA/CHNA)

Select at least 1 priority outcome indicator within each selected priority topic (see master list of SHIP indicators)

Identify priority populations for each priority outcome indicator (based on findings from CHA/CHNA) and develop targets to reduce or eliminate disparities

- Select at least 1 cross-cutting strategy relevant to each selected priority outcome (see community strategy and indicator toolkits) AND
- Select at least 1 cross-cutting outcome indicator relevant to each selected strategy (see community strategy and indicator toolkits)

For a stronger plan (optional), select 1 strategy and 1 indicator for each of the 4 cross-cutting factors.

- Prioritize selection of strategies likely to decrease disparities (see community strategy and indicator toolkits)
- Ensure that delivery of selected strategies is designed to reach priority populations and high-need geographic areas

Definitions
- CHA — Community health assessment led by a local health department
- CHNA — Community health needs assessment led by a hospital
- Indicator — A specific metric or measure used to quantify an outcome, typically expressed as a number, percent or rate. Example: Number of deaths due to suicide per 100,000 population.
- Outcome — A desired result. Example: Reduced suicide deaths.

Priority population — A population subgroup that has worse outcomes than the overall Ohio population and should therefore be prioritized in SHIP strategy implementation. Examples include racial/ethnic, age or income groups; people with disabilities; and residents of rural or low-income geographic areas.

Target — A specific number that quantifies the desired outcome. Example: 12.51 suicide deaths per 100,000 population in 2019.
