Note: GoToWebinar call-in and log-in numbers will be included in calendar invites and posted agendas (all meeting materials will be posted [here](#)). In-person meetings will be held at HPIO (10 W. Broad Street, 5th floor conference room.) [Click here](#) for information about getting to HPIO.

*The Chronic Disease Work Team will also address the Overall Health Outcomes (health status and premature death)

**Maternal and infant health may be reconceptualized and re-named (TBD, pending further discussions with the MCH/MIECHV Steering Committee)

### Which meetings should I attend?

Please attend the meetings that best align with your skills, expertise and schedule availability.

All Advisory Committee and Steering Committee members are invited to attend any and/or all of the above meetings. In addition, we are seeking additional subject matter experts in each area—particularly from sectors such as education, housing, transportation, violence prevention, community development, etc.
For the target-setting discussions, we are seeking:
- Representatives of priority populations, including the following groups: black/African American, Hispanic, Appalachian, low income, people with disabilities, LGBTQ, women, children or other groups experiencing worse health outcomes than Ohio overall
- State agency epidemiologists and data analysts familiar with data sources for measurable outcomes
- Local-level epidemiologists and others involved in development of measurable objectives for local community health improvement plans

**Guide to development of SMART objectives for the 2020-2022 SHIP**

The SHIP will include several SMART objectives, meaning objectives that are:
- Specific
- Measurable
- Achievable
- Realistic
- Time-bound

During meetings in June-August 2019, we will be convening SHIP Work Team meetings to discuss the following components of developing SMART objectives for the 2020-2022 SHIP.

*Red font* indicates the Steering Committee (SC), Advisory Committee (AC) and Work Team (WT) meetings where each component will be discussed:

<table>
<thead>
<tr>
<th>SHIP framework and SMART objective components</th>
<th>Health factors The factors that shape our health</th>
<th>Health outcomes How we will know if health is improving in Ohio</th>
</tr>
</thead>
</table>
| **Topic**                                    | • Community conditions (social determinants of health)  
  • Health behaviors  
  • Access to care  
  May 16 SC  
  June 4 AC | • Mental health and addiction  
  • Chronic disease*  
  • Maternal and infant health**  
  May 16 SC  
  June 4 AC |
| **Topic sub-category**                        | TBD, such as the following example sub-categories within Community conditions/SDOH:  
  • Education  
  • Housing  
  • Transportation  
  • Violence  
  • Food insecurity  
  • Etc.  
  June 4 AC | NA |

| III |
Desired outcome

TBD, examples:
- Increase kindergarten readiness
- Increase access to public transportation
- Decrease food insecurity

June 4 AC
June WT

Examples:
- Reduce depression
- Reduce diabetes
- Reduce infant mortality

June 4 AC

Indicator (and data source)

Specific and Measurable

TBD, examples:
- Kindergarten readiness (ODE)
- Housing cost burden (Census Bureau)

June WT
July WT (target-setting)

Examples:
- Prevalence of major depressive episodes (ages 12-17) (NSDUH)
- Infant mortality rate (ODH)

June 4 AC
July WT (target-setting)

Baseline data

TBD, example:
- In 2018, 41.5% of Ohio children entering kindergarten were ready for reading instruction (band 3)

July WT (target-setting)

Example:
- In 2013-2014, 10.33% of Ohio adolescents (age 12-17) experienced a major depressive episode within the past year

July WT (target-setting)

Target

Realistic, Achievable and Time-Bound

TBD, example:
- By 2022, 50% of Ohio children entering kindergarten will be ready for reading instruction (band 3)

July WT (target-setting)

Example:
- By 2019, <8.03% of Ohio adolescents (age 12-17) will have experienced a major depressive episode within the past year

July WT (target-setting)

Priority population

TBD, examples:
- Black/African-American children
- Appalachian county residents

June WT
July WT (target-setting)

Examples:
- Adults with low incomes
- People with disabilities

July WT (target-setting)

Evidence-based strategies, including policies and programs likely to reduce disparities and inequities, and

TBD, examples:
- Early childhood home visiting
- Early childhood education

Examples:
- School-based health centers with behavioral health services

TBD, examples:
strategies to reduce racism and discrimination

- Public transportation improvements
  July-Aug WT

- School-based social and emotional instruction
  July-Aug WT

Note: Meeting dates are preliminary.
*The Chronic Disease Work Team will also address the Overall Health Outcomes (health status and premature death)
**Maternal and infant health may be reconceptualized and re-named (TBD). In addition, the MCH/MIECHV Steering Committee will also be involved in discussing SMART objectives for the MCH populations.

Definitions

**Outcome**: A desired result

**Indicator**: A specific metric or measure used to quantify an outcome, typically expressed as a number, percent or rate

**Target**: A specific number that quantifies the desired outcome

**Outcome objective**: A statement describing the specific outcome (including baseline data, a specific timeframe and a data source)

HPIO is facilitating development of the SHIP under contract with the Ohio Department of Health (ODH).
