Steering Committee member name:

Round 1: Maternal and Child Health (MCH) priority areas
Please answer the following questions to provide feedback on the top priority areas to focus on in the MCH assessment and state action plan.

1. What was surprising or particularly important about the priorities identified in table 1 of the preliminary data findings document?

2. Are there any of the existing priorities that are shaded grey in table 2 of the document that you think should be elevated into table 1? If you are adding a priority outcome to table 1, which one should be removed?

3. Are you aware of any data sources for priority areas for which there are no metrics available?

4. Which of the national outcome measures (NOMs) or other metrics do you think are most critical for the state to track based on the priority areas identified in table 1? Please reference the MCH priority area metrics document for measures.
Round 2: MCH/MIECHV and State Health Improvement Plan (SHIP) alignment
Please answer the following questions to gather feedback on the alignment of the SHIP with MCH/MIECHV.

1. What do you think about the proposal to change maternal and infant health to maternal and infant mortality in the SHIP? Note that changing to maternal and infant mortality will mean the addition of a maternal mortality outcome and removing either preterm birth or low birth weight.

2. Based on the MCH priority areas and SHA findings, are there any of the seven MCH-related SHIP priority outcomes that should be removed or replaced? If you are adding a priority outcome, which one should be removed? Please reference the life course graphic.

3. Based on the MCH priority area findings, which health behaviors (categorized as public health system, prevention and health behaviors in the MCH assessment), community conditions (categorized as the social determinants of health in the MCH assessment) and access to care issues (categorized as healthcare system and access in the MCH assessment) do you think are most important to prioritize in the SHIP?
