What shapes our health?
Many factors, including these SHIP priorities:

What are Ohio's top health priorities?
The SHIP identifies the following health priorities:

How will we know if health is improving in Ohio?
The SHIP tracks the following outcomes:

Equity: The SHIP identifies strategies and tracks outcomes that shape the health of Ohioans at all stages of life and reduce inequities so that all Ohioans achieve their full health potential.

Community conditions
- Education/employment metric (TBD)
- Housing/transportation metric (TBD)
- Violence metric (TBD)

Health behaviors
- Health behavior metric 1 (TBD)
- Health behavior metric 2 (TBD)
- Health behavior metric 3 (TBD)

Access to care
- Access metric 1 (TBD)
- Access metric 1 (TBD)

Three health priority topics
- Mental health and addiction
- Chronic disease
- Maternal and infant health

10 priority health outcomes
- Depression
- Suicide
- Drug overdose deaths
- Drug dependency/abuse
- Heart disease
- Diabetes
- Child asthma
- Preterm births
- Low birth weight
- Infant mortality

Two overall health outcomes
- Improved health status
- Reduced premature death

All Ohioans achieve their full health potential

Vision
Ohio is a model of health, well-being and economic vitality

Achieving the SHIP vision will lead to improvement in the factors that shape health

Priority outcome related to a specific maternal and child health priority population
